

ABSTRACT

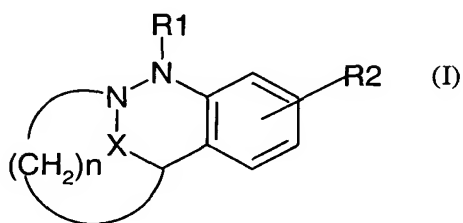

5

10

Novel heterocyclic compounds, preparation process and intermediates, and use as medicaments, in particular as β -lactamase inhibitors and antibacterials

15

20 The invention relates to novel heterocyclic compounds of general formula (I) and to their salts with a base or an acid:

25 The invention also relates to processes and to intermediates for the preparation of these compounds, and to their use as medicaments, in particular as antibacterials and β -lactamase inhibitors.
